Clif

on one end of the first handlebar, a brake control bar connector connected to the brake shoes, and a control cable coupling the brake control bar connector and the twist-type brake control handle for activating the brake shoes and controlling movement of the wheelbarrow, further comprising a large pitch screw on an end of the control cable, wherein the screw is freely movable in opposite directions.

Cr

25. (Amended) The system of claim 47, wherein the disc brake assembly further comprises a frame mounted caliper, wherein the disc is mounted on the wheel of the wheelbarrow, and wherein the caliper acts upon the disc for slowing the wheelbarrow by friction.

03

30. (Amended) The system of claim 46, wherein the box has extensions for supporting the wheel, and wherein the control cable couples the control handle to the brake assembly for controlling a movement of the wheel.

CH

37. (Amended) Braking apparatus comprising a braking mechanism including a brake, a twist-type handle and a brake cable connecting the twist-type handle and the brake, wherein the handle is twistable to a plurality of positions for controlling speeds of movement of vehicles coupled to the braking mechanism, further comprising a pitch screw on an end of the cable movable freely in different directions.
